**Please fill this out and return to 747-767-1711 or [dpe@rotaiva.com](mailto:dpe@rotaiva.com).**

#### REQUIRED NEXT STEPS

- Go to <https://ezdpe.com/downloads.html> (or [ezdpe.com](https://ezdpe.com) and select "downloads" from the menu) and select the Pretest Checklist icon for the practical test you will be taking.
  - If you are taking a test that isn't listed in the icons, then you do not need a pretest checklist.
- Download and print the Pretest Checklist for your test.
- Follow **all** the instructions very carefully, and complete the Pretest Checklist.
- The Pretest Checklist contains three cross-country scenarios. Select one of them to prepare and plan leading up to your test. (*Single- or Multi- Add-Ons can skip this step.*)
- Failure to follow all the Pretest Checklist instructions could result in a non-starter on the day of the test, and necessitate rescheduling for a later date.

#### OPTIONAL NEXT STEPS

- On the same website Downloads page, there are Additional Resources.
- All test applicants could benefit from downloading and printing the PAVE Preflight Checklist to use as a "roadmap" for the ground portion of the test.
- IFR and CFII applicants could benefit from downloading and reviewing the Advisory Circular 90-108 "GPS in Lieu and Overlays". Also, read AIM 1-2-3.
